

Coaxial Cable Stripping Machine

WG-4806FG

Features

- Mainly targets stripping aluminum foil & stripping core wire for RG174 RTK031 and other FAKRA harnesses;
- Equipped with a positioning device to align with the rear end of the braided sheath to avoid braid damage;
- Zero-cut function to improve the length accuracy after core wire stripping;
- Newly designed high-speed rotating stripping head ensures high processing precision;
- Utilizes intelligent digital optoelectronic technology, imported ball bearings, and screw drive;
- Patented coaxial positioning device eliminates the need for recalibration when changing tools, simplifying operation;

Product Parameters

Equipment Model	WG-4806D
Stripping Range:	2.5mm-4.5mm
Aluminium Foil Stripping Length:	0.5mm-32mm
Cutting Depth Unit:	0.01mm
Maximum Stripping Layers:	9
Blades:	2
Power Supply:	AC 220V 50/60Hz
Productivity:	400-600pcs/h
Weight:	20kg
Size:	540*190*330mm
