

Coaxial Cable Stripping Machine

WG-8023C

Features

- Applicable for the processing of larger diameter coaxial cables and special single wires;
- Utilizes advanced four-blade rotary cutting technology to enhance processing precision and capability;
- Rotary cutting blades slice through the entire circumference, minimizing the pulling force required for stripping;
- 200 sets of processing data storage, allowing for quick retrieval by entering the storage code.

Product Parameters

Model	WG-8023C
Stripping Range:	2.0mm-23mm
Stripping Length:	1.0mm-150mm
Cutting Depth Unit:	0.01mm
Maximum Stripping Layers:	9 layers
Blades:	4 pcs
Power Supply:	AC 220V 50/60Hz
Productivity:	250-500pcs/h
Weight:	40kg
Size:	850*230*360mm
