

Coaxial Cable Stripping Machine

WG-9550/WG-9550R

Features

- Applied for processing medical harnesses and ultra-fine coaxial cables.
- Utilizes advanced dual-blade rotary technology to enhance processing precision and capability.
- Equipped with an emergency stop switch for immediate activation during unexpected or uncontrollable situations, ensuring personnel and machine safety.
- Rotary blade cuts the entire circumference, minimizing stripping force requirements.
- Patented coaxial centering device eliminates recalibration during blade replacement, simplifying operation.

Product Parameters

Model	WG-9550/WG-9550R
Stripping Range	0.81 - 3.5mm
Max Pull Off length	Front: 60mm / Rear: 35mm
Min Stripping Length	Window: 22mm
Cutting Depth Unit	0.01mm
Max Stripping Length	9 Layers
Stripping Method	Rotary blades: 2pcs / Cutting Blades: 2pcs
Power Supply	AC 220V 50/60Hz
Productivity	800-1200pcs/h
Weight	93kg
Dimensions	750*670*460mm(Tabel is optional)
