

Coaxial Cable Stripping Machine

WG-4806D

Features

- Suitable for processing hard coaxial cables and semi-rigid coaxial cables;
- Adopting advanced four-blade rotary cutting technology to improve processing accuracy and capacity;
- Rotary knife cuts the entire circumference, minimizing the pulling force required for stripping;
- Patented coaxial center positioning device allows for tool changes without recalibration, ensuring simple operation.

Product Parameters

Equipment Model	WG-4806D
Stripping Range:	1.0mm-6.0mm
Stripping Length:	1.0mm-48mm
Cutting Depth Unit:	0.01mm
Maximum Stripping Layers:	9
Blades:	4
Power Supply:	AC 220V 50/60Hz
Productivity:	450-650pcs/h
Weight:	22kg
Size:	540*190*330mm
